MEMORANDUM FOR THE RECORD

SUBJECT: SAFE/ADSTAR Telephone Closet Security

REFERENCE: Memo for C/ISSG from C/HEB Subj: Project
SAFE and ADSTAR Construction dated 18 Sep 1978

1. The referent memo requested that ISSG survey the SAFE/ADSTAR area to determine if there were any special construction requirements which should be included into the construction project as a result of having a black telephone closet (GE78) located within the SAFE area.

2. A meeting was held on 15 November 1978 with

STATINTL

[REDACTED] OS/ISSG. The SAFE site plans were examined, and it was determined that no special requirements would be generated as a result of the presence of the telephone closet. [REDACTED] did state that if the plans changed and that the closet were located in the computer center, proper rather than the point area as shown on the latest plans, the area would have to be surveyed and most likely shielding would be required.

STATINTL

3. As a result of this meeting, the telephone closet will stay as is. Additional meetings will be held with OC-DND to coordinate telephone service for the area.
